

CONTENTS

Preface	page	LX
L. TRENTADUE - Opening	"	1
1. PLENARY SESSIONS		
R. BARBIERI - Electroweak symmetry breaking, on the way to LHC	"	5
P. CHECCHIA - Physics at new accelerators	"	17
2. SESSION ON ELECTROWEAK PHYSICS		
E. ACCOMANDO - Electroweak Six-Fermion Physics at the LHC with PHASE	"	21
P. AZZURRI - Gauge boson self couplings and four-fermion final states at LEP	"	25
T. BOCCALI - Electroweak physics at LHC	"	29
C. M. CARLONI CALAME, G. MONTAGNA, O. NICROSINI and M. TRECCANI - Electroweak radiative corrections and the W boson mass at hadron colliders	"	35
V. CIULLI - Lepton and quark asymmetries	"	39
G. COLANGELO - Hadronic contributions to a_μ below 1 GeV	"	43
F. COSSUTTI - State of the art and prospects of the measurement of the W mass	"	49
G. MANCA (For the CDF and DØ COLLABORATIONS) - Recent results in electroweak physics at the Tevatron	"	53
C. MARIOTTI - Search of the Standard Model Higgs at LEP	"	61
F. NGUYEN (For the KLOE COLLABORATION) - The measurement of R : Status and perspectives	"	65
M. PACANONI - Electroweak measurements at the linear collider	"	69
G. RODRIGO - Ritorno radiativo per la misura di R : Come e perché	"	73
A. SIDOTI (For the CDF COLLABORATION) - Top Quark Physics at the Tevatron	"	77
L. TRENTADUE - Electroweak logarithms and heavy quark decays ..	"	83
S. UCCIRATI - Methods to compute multi-loop Feynman diagrams ..	"	87
3. SESSION ON FUTURE PROJECTS AND NEW TECHNOLOGIES		
P. CENCI, S. LEONE, and L. PONTECORVO - Future projects and new technologies: Summary	"	93

G. ANZIVINO - KOPIO: A measurement of $K_L \rightarrow \pi^0 \nu \bar{\nu}$	page	103
T. BELLUNATO - The LHCb RICH detector: Status and prospects..	"	109
A. CASTELLINA - Astrophysics of cosmic rays: From direct measurements to Auger.....	"	115
F. CEI(On behalf of the MEG COLLABORATION) - The MEG experiment at PSI.....	"	121
P. CHECCHIA - Detectors for a future linear collider.....	"	127
S. GILARDONI - Introduction to the neutrino factory.....	"	133
N. GRASSI - Nuclear physics applications to the cultural heritage...	"	137
M. I. MARTÍNEZ - The front-end electronics for the silicon drift detectors of the ALICE experiment.....	"	143
A. MORSELLI - Particle physics with space detectors.....	"	149
M. CAIRONI, D. NATALI and M. SAMPIETRO - Organic photodetectors for scintillators: Feasibility of a new concept.....	"	153
L. SERVOLI, G. M. BILEI, P. CIAMPOLINI, G. MATRELLA, D. PASSERI P. PLACIDI and L. VERDUCCI - Active pixel sensors for particle detection integrated in standard CMOS Technology.....	"	157

4. SESSION ON HEAVY QUARKS

U. AGLIETTI - Soft gluons in beauty decays.....	"	163
M. BONA - Charmless two-body decays and measurements of the angle α at the B-factories.....	"	169
C. BOZZI - B physics: Status and perspectives.....	"	173
F. BUCCI - Radiative and leptonic rare B decays.....	"	179
P. COLANGELO - Non factorizable effects in B decays to charmonium.....	"	183
S. D'AURIA (For the CDF COLLABORATION) - B physics at CDF..	"	189
S. DE CECCO - Charm physics at CDF first results and perspectives.....	"	195
F. DE FAZIO - Topics in CP violation.....	"	199
P. DE SIMONE (For the KLOE COLLABORATION) - Perspectives on measuring V_{us} at KLOE.....	"	207
R. FANTECHI - Decadimenti rari del K_S e fisica dei K carichi con NA48 al CERN.....	"	213
C. GALTI (For the KLOE COLLABORATION) - Studies of K_S decays at KLOE.....	"	217
S. MALVEZZI - Charm in FOCUS and BABAR.....	"	221
G. MARCHIORI - Perspectives for the measurement of the CKM angle γ at the B-factories.....	"	227
A. POMPILI (For the BABAR COLLABORATION) - Observation of a narrow meson in the $D_s^+ \pi^0$ final state at BABAR.....	"	233
M. ROTONDO (For the BABAR Collaboration) - Measurements of $ V_{cb} $ at the B-Factories.....	"	239
G. RUGGIERO (For the NA48 COLLABORATION) - K_L decays with the NA48 experiment.....	"	243
A. SARTI - $ V_{ub} $ measurements at B-Factories.....	"	247

M. SCARPA – Direct CP violation at NA48	page	253
S. TOSI – Charmonium physics at <i>B</i> -Factories	"	259

5. SESSION ON HADRONIC PHYSICS AND QCD

T. BOCCALI – NLO effects in heavy flavour measurements at the Z peak	"	265
G. BOZZI – Q_T -resummation in Higgs boson production at the LHC	"	271
S. BRACCINI – Two-photon physics at LEP	"	277
M. CACCIARI – Heavy quark production: Theory <i>vs.</i> experiment ...	"	283
A. DE ANGELIS – Hadronic events at LEP	"	291
F. FERRO (For the TOTEM COLLABORATION) – p-p physics with TOTEM	"	295
G. LATINO (On behalf of the CDF and $D\phi$ COLLABORATIONS) – JET physics at Tevatron.....	"	299
R. SGHEDONI – Resummed transverse momentum distribution in $b \rightarrow s\gamma$	"	305

6. SESSION ON NEUTRINO PHYSICS

D. MONTANINO and F. TERRANOVA – Neutrino physics summary ..	"	313
M. BONESINI – Future neutrino projects at accelerators.....	"	321
N. FERRARI – The experiments for the detection of solar neutrinos ..	"	325
M. FRIGERIO – Oscillations and leptogenesis: Test of the seesaw mechanism	"	329
C. GIUNTI – Theory of neutrino oscillations	"	337
A. CUOCO, F. IOCCO, G. MANGANO, G. MIELE, O. PISANTI, and P. SERPICO – Cosmological neutrinos after WMAP.....	"	341
A. MARRONE – Phenomenology of solar and atmospheric neutrinos ..	"	345
T. MONTARULI – Astrophysics Neutrino Detection.....	"	351
G. FIORENTINI, B. RICCI and F. L. VILLANTE – Solar neutrinos and the sun.....	"	355

7. SESSION ON NEW PHYSICS

M. ANTONELLI – Searches for new physics at LEP: Supersymmetry and extradimension.....	"	361
G. CACCIAPAGLIA – Neutrinos and supernovae: How tight are the limits on extra dimensions?.....	"	367
M. CIRELLI – Neutrinos in extra dimensions and supernovae: Which signal from the next explosion?.....	"	371
A. CAFARELLA, C. CORIANÒ and A. E. FARAGGI – Ultra high energy cosmic rays and air shower simulations: A top-bottom view.....	"	377
A. DE MIN – Exotic searches at LEP.....	"	383
S. DUSINI – Searches for new physics at HERA	"	389
S. GENNAI – Beyond standard model Higgs bosons at LHC.....	"	395

F. HAPACHER – Properties of jets with heavy flavor produced in $p\bar{p}$ collisions at Tevatron, $\sqrt{s} = 1.8$ TeV	page	399
C. PAGLIARONE (On behalf of CDF and DØ COLLABORATIONS) – Searches for new physics at Tevatron	“	405
A. ROSSI – Lepton flavour violation in supersymmetric models.....	“	413
G. SEGNERI – New physics searches at LHC	“	417
List of non received contributions	“	423
List of Participants	“	425
